

UNAM
UNIVERSITY OF NAMIBIA

Certificate

OF APPRECIATION

THIS CERTIFICATE IS AWARDED TO

Tinotenda M. Mapara

in recognition of the successful completion of the project
"Design and Fabrication of an Innovative Water Distribution System Prototype"

developed for Ongwediva Town Council and exhibited
at the Ongwediva Annual Trade Fair 2024.

This innovative system integrates smart water level sensors, gravity water towers, flow sensors for leakage detection, and smart water meters, exemplifying innovation and excellence in water management solutions.

Dr. Ester Angula
HOD
Mechanical and Metallurgical Engineering

PRESENTED THIS ON 23 AUGUST 2024

Dr. Petrina T. Johannes
Associate Dean
School of Engineering of the Built Environment
